COMMUNICATION AND INTERPERSONAL SKILLS

Skills

- **Technical Proficiencies:** SQL Server, Microsoft Power BI, DAX, Advanced Excel (Power Query, Power Pivot), ETL (SSIS, SSAS, SSRS), DWH, and Python.
- **Data Analysis:** Data Cleaning, Data Manipulation, Data Visualization, Data Storytelling.
- **Communicated effectively.**

PROJECTS

Egyptian Economy

Objective: This study aims to analyze Egypt's economic data to assess the impact of various variables on key indicators, enhance forecasting accuracy, and improve data quality.

Key Technologies: Applied Python programming and Jupyter Notebook for data analysis and modeling.

Achievements: Achieved 95% prediction accuracy and provided actionable insights for economic strategy improvements.
